## INFUSION SET

### GENERAL FEATURE :

- Constitute extra strong & sharp spike with Clear, transparent and flexible drip chamber with disc filter facilitates visualization.
- Suitable for administration of Infusion fluid for medical therapy.
- Efficient roller controller for accurate and unrestricted flow.
- Super smooth kink resistant PVC tubing with standard length of 1500 mm for easy visualization of flow.
- Sterile/Disposable/Individual Packed. I EO Sterile, Non- Toxic and Pyrogen

### SPECIFICATIONS :

- 13mm Non Vented Chamber
- 42mm Plain Latex Tube
- Ivory Regulator
- 21G Needle
- PVC Tubing 6gm
- H.M Pouch

## B . T SET

### GENERAL FEATURE :

For transfusion of blood and blood components.

- Clear, transparent and flexible drip chamber facilitates visualization.
- sharp spike for better penetration.
- Specially designed roller clamp for better flow control.
- Superior quality & self sealing latex tubing / latex or latex free flash bulb for easy flushing
- Super smooth kink resistant PVC tubing with standard length of 150 cms.
- Approx. 200 micron blood filter and 18 G hypodermic needle.
- Approximately 20 drops/ml
- Non- Toxic, Pyrogen free & Sterile by EO.
- Available Single or Double drip chamber.

## I.V SET WITH AIRVENT

### SPECIFICATIONS :

- 13mm Air Vented Chamber
- 48mm Bulb Latex Tube
- Ivory Regulator
- 21G Needle
- PVC Tubing 6gm
- H.M Pouch

## MEASURED VOLUME SET

- Suitable for infusion of measured quantities of fluid. I Clear, soft, cylindrical & calibrated measured volume chamber with marking for precise fluid administration.
- Efficient roller controller for better flow control.
- Soft and kink resistant tube.
- Specially beveled strong & sharp spike for smooth & better penetration. I Bulb Latex or Tube Latex for easy Flushing.
- Automatic floating shut off valve to prevent air embolism and indicate fluid level.
- Approximately 60 drops/ml Size : 110 ml & 150 ml

## SCALP VEIN SET

- Designed to provide rapid venous access, for patient comfort during long infusion.
- Siliconized and thin walled high quality imported needle for atraumatic insertion.
- Color coded butterfly shaped wings for easy handling and better fixation.
- Super smooth kink resistant tube.
- Sterile/ Disposable/ Individual blister / Poly pack. I Size: 18 19 20 21 22 23 24 25

## NEBULIZER MASK

- Consist of face mask with an specially designed nebulizer chamber for nebulizing patients.
- Nebulizer chamber capacity 5/6/7 cc.
- Swivel connector for convenience of attachment to the oxygen tube.

## OXYGEN MASK

- Specially designed for convenient oxygen therapy.
- Soft ,clear , large anatomical face mask for patient comfort.
- Adjustment elastic strap and clip for proper positioning of mask.
- Provided with 210 cm long multichannel tube to ensure continuous flow of oxygen even if tube accidentally kinked.

## HI CONCENTRATION MASK

High concentration oxygen mask with tubing is intended to supply oxygen or other gases to an individual for oxygen therapy, and the reservoir bag is able to avoid rebreathing.

Made from non- Toxic medical grade PVC , 100 % Latex free.

Comes with 1 Ltr Reservoir bag

## NASAL CANNULA

Suitable for easy and efficient administration of oxygen via nasopharyngeal route.

Soft and smooth open distal end with multiple lateral eyes for even dispersion of oxygen. Funnel connector at proximal end.

Color coded by size for easy identification. | Sterile/ Disposable/ Individual Packed.

Length: 40 cms

Size: 8 10 12 14 16 18 20

## ENDOTRACHEALTUBE PLAIN

## ENDOTRACHEALTUBE CUFFED

## SUCTION CATHETER

- Manufactured from soft Non toxic , Non Irritant medical grade PVC.
- Designed for removal for secretion from mouth, trachea and branchial tubes.
- Frozen surface tubing for smooth insulation. Color coded connector for easy size identification. Sterile/Disposable/Individual Packed.
- Size: 8 10 12 14 16 18 20

## FOLLEY CATHETER

- Optimal Eyes
- Smooth , optimal eyes ensuring atraumatic introduction and effective drainage.
- Pressure resistant balloon Ultra thin highly elastic balloon
- Easily Infated or defated for maximum patient safety
- Large drainage lumen
- For fast and effective drainage
- Round channel that minimizes encrustation and clogging.
- Strong drainage funnel kink resistance and provides best connection to drainage bag
- Inflation Valve
- Choice of Hard or Soft non-return Valve for trouble free inflation & deflation of balloon.
- SIZE 6,8,10,12,14,16,18

## URINE COLLECTION BAG

- Available with hanging & carrying facilities using molded hanger or hanger stick with string.
- Capacity : 2000 ml Approx.

## MUCUS EXTRACTOR

- Specially designed for aspiration of secretion from oropharynx in newly born babies to ensure free aspiration.
- Convenient to extract mucus specimen for micro biological examination.
- Spare plug cap is provided for sealing and storage of specimen. | Low friction surface catheter is provided with open end silk smooth round tip for trauma free insertion.
- Also available with bacterial barrier filter at suction end. | Capacity 20 - 25 ml.
- Sterile/ Disposable/ Individually Poly or Paper Packed.

## SURGICAL GLOVES

- Intended to use in invasive surgery for protective covering for the hands from contamination.
- Made from special quality natural rubber latex. | | Lightly powdered with bio- absorbable corn starch
- USP grade to prevent granule. Anatomically shaped for better comfort and micro rough surface for better instrument grip.
- Offers superior barrier protection , precise dexterity, tactile sensitivity and flexibility.
- Size : 6, 6.5, 7, 7.5 8, 8.5, 9.

## MUCUS EXTRACTOR

- Specially designed for aspiration of secretion from oropharynx in newly born babies to ensure free aspiration.
- Convenient to extract mucus specimen for micro biological examination.
- Spare plug cap is provided for sealing and storage of specimen. | Low friction surface catheter is provided with open end silk smooth round tip for trauma free insertion.
- Also available with bacterial barrier filter at suction end. | Capacity 20 - 25 ml.
- Sterile/ Disposable/ Individually Poly or Paper Packed.

## SURGICAL GLOVES

- Intended to use in invasive surgery for protective covering for the hands from contamination.
- Made from special quality natural rubber latex. | | Lightly powdered with bio- absorbable corn starch
- USP garde to prevent granuloese. Anatomically shaped for better comfort and micro rough surface for better instrument grip.
- Offers superior barrier protection , precise dexterity, tactile sensitivity and fiexibility.
- Size : 6, 6.5, 7, 7.5 8, 8.5, 9.

## I V CANNULA

- **High-Quality Material:** Made From biocompatible, latex-free, and DEHP-free medical-grade materials.
- **User-Friendly Design:** Flexible wings and kink-resistant catheter for easy handling and patient comfort.
- **Safety Assured:** Needle stick injury prevention with built-in safety guards
- **Versatile Size Option:** Available in all standard gauges with color-coded sizes for quick identification.
- **Applications:** Ideal for infusion therapy in hospitals, clinics, and home care settings.
- **International Standards:** ISO, CE, and FDA certified for unmatched quality and safety.

## SYRINGE

**Sterile, Non-Toxic,  
 Non-Pyrogenic,  
 Single use only,  
 E.T.O.**

Hypodermic Syringe With Needle is used for the administration of the injectable fluids Intra vascular/ Intra muscular and to withdraw blood samples for pathological purpose. It contains Barrel, Plunger, Gasket & Hypodermic Needle with protector cap.

S.No.	Product Name	Size	Type of Packing	Pcs Per Shelf boxes	Pcs per Carton
1	SYRINGE	0.5 ml	Blister	100	2000/3000
2	SYRINGE	1 ml	Blister	100	2000/3000
3	SYRINGE	2 ml	Blister	100	2000/3000
4	SYRINGE	3 ml	Blister	100	2000/3000
5	SYRINGE	5 ml	Blister	100	2000/2400
6	SYRINGE	10 ml	Blister	100	2000
7	SYRINGE	20 ml	Blister	25	500
8	SYRINGE	50 ml	Blister	25	250
9	SYRINGE	100 ml	Blister	10	100

## NEEDLE

- ✓ Ultra-sharp, triple-bevel tip for painless injection
- ✓ Thin wall design for better fluid flow
- ✓ Sterile, single-use, non-toxic, non-pyrogenic
- ✓ Protective cap for safety
- ✓ Available in various gauges and lengths

## **AUTO DISABLE SURINGE**

- ✓ Auto-disable mechanism for preventing reuse
- ✓ Clear barrel with easy-to-read graduation marks
- ✓ Needle lock feature for secure and safe usage
- ✓ Painless, smooth plunger action for efficient fluid administration
- ✓ Sterile, single-use design
- ✓ Luer Lock or Luer Slip connection

## 3 WAY STOPE COCK

- ✓ 360° smooth rotation for easy fluid direction control
- ✓ Minimal dead space to prevent contamination
- ✓ High-pressure resistance (up to 4.5 bar)
- ✓ Lipid-resistant & latex-free material
- ✓ Compatible with Luer lock & Luer slip syringes
- ✓ Available with/without extension tube

## MV SET

- ✓ Universal Luer Lock connector for compatibility with most IV sets
- ✓ Precision flow regulator for accurate fluid delivery
- ✓ Bacteria filter for safety and infection prevention
- ✓ Sterile, single-use design
- ✓ Smooth, kink-resistant tubing
- ✓ Soft, flexible needle for comfort
- ✓ Available in various lengths for flexible application

## EXTENSION SET

- ✓ Flexible and kink-resistant tubing for uninterrupted flow
- ✓ Luer lock or Luer slip connections for secure fittings
- ✓ Sterile and single-use for patient safety
- ✓ Available in different lengths (e.g., 30 cm, 50 cm, 100 cm)
- ✓ Smooth inner surface to minimize clotting and reduce Bacterial growth
- ✓ Clear tubing for easy monitoring of fluid flow
- ✓ Radiopaque option for visibility under X-ray (optional)
- ✓ Compatible with a wide range of IV devices

## **CORD CLAMP**

- ✓ **Non-puncturing clamp for safe and easy application**
- ✓ **Ergonomic design for a secure and comfortable grip**
- ✓ **Sterile, single-use for enhanced patient safety**
- ✓ **Quick-release mechanism for easy removal after cord separation**
- ✓ **Bright color-coded design for easy identification during delivery**
- ✓ **Available in different sizes to accommodate newborns of varying sizes**
- ✓ **Made from medical-grade, non-toxic plastic**
- ✓ **Latex-free**

## **YANKAUR SUCTION SET**

- ✓ Rigid design for controlled suctioning and easy maneuverability
- ✓ Ergonomic handle for comfortable grip during prolonged use
- ✓ Large-bore, wide opening for efficient fluid removal
- ✓ Non-kinking tubing for reliable fluid flow
- ✓ Sterile, single-use to ensure hygiene and patient safety
- ✓ Color-coded versions for easy identification
- ✓ Available with or without a thumb control valve for enhanced suction control
- ✓ Latex-free material
